STREET INDEX OF INVENTORIED PROPERTIES

NOTE: Although the inventory includes each entire area listed on Page 1, and outlined on each Area Sketch Map, only resources which have individual forms, or are mentioned in text of the Area Forms, have been given inventory numbers and are listed on the Index of Inventoried Properties. As a rule, these represent the most historically or architecturally significant resources surveyed. There are more historic properties located within most areas, however. (See the Area Sketch Maps for their locations.) Starred properties (\*) are discussed on an individual or small area or streetscape form
